1. Introduction

Sasol is committed to ensuring effective governance, risk management and compliance with the principles of sound corporate governance, as outlined in the King IV Report on Corporate Governance for South Africa (King IV) as well as with the various stock exchange listing requirements, where Sasol is listed.

Conducting business in organisations is often complex, and Employees may regularly be confronted with situations where Conflicts of Interest arise. It is critical that these Conflicts of Interest are dealt with in a responsible and ethical way.

It is important to note that there is often a strong link between Conflicts of Interest and fraud and corruption. Not all Conflicts of Interest will amount to fraud and corruption, but in **ALL** forms of corruption there is an element of a Conflict of Interest - as corruption is using your entrusted power for your private benefit. Conflicts of Interest which are not managed correctly may manifest as corruption.

All Employees must be aware of Conflict of Interest situations, and how to deal with them.

2. Purpose / Objective

2.1 The purpose of this Policy is to:

2.1.1 Provide details as to what is likely to be regarded as a Conflict of Interest; and

2.1.2 Set out Sasol's approach in respect of managing Conflicts of Interest.

2.2 Sasol has a zero tolerance to any unethical or illegal conduct irrespective of how it affects its business and thus Sasol is committed to ensuring that Conflicts of Interest situations are managed appropriately and ethically.

2.3 Employees are obliged to declare their interests and to make Conflict of Interest disclosures that they have actual knowledge of or reasonably ought to have knowledge of.

4. Owner of this Policy

The Group Ethics Office is the custodian of this Policy, and the Senior Manager Ethics is the owner.

5. Scope and Application

5.1 This Policy applies to the Sasol Group as a whole, inclusive of all Employees, subsidiaries and legal entities (including joint ventures to the extent that Sasol has majority shareholding and/or management control) and subject to, if required, the acceptance and approval of the Policy by the respective entities' Board of Directors or other responsible corporate decision-making body. Entities in which Sasol does not have majority shareholding and/or management control are encouraged to apply this Policy or a similar standard.

5.2 In any country where this Policy conflicts with legislative or other regulatory requirements, such local legislative or other regulatory requirements shall override this Policy to the extent required and the Owner of this Policy will accordingly be notified.

5.3 This Policy must be read and understood in conjunction with the Sasol Anti-Bribery Policy, Sasol Gifts, Entertainment and Hospitality Policy, Code of Conduct and the External Directorship Policy.

6. What is a Conflict of Interest?

6.1 Good business practice requires that Employees of Sasol make fair and objective decisions that are in Sasol's best interest. Such decisions can only be made if the Employee is not unduly influenced by a personal benefit or by a benefit for a Related Party.

6.2 A Conflict of Interest may occur where an Employee is confronted with choosing between the requirements of his/her official duties as a Sasol Employee and his/her own private interests (or the interests of Related Parties and the interests of Sasol).

6.3 Thus, a Conflict of Interest exists whenever an Employee's personal interests are inconsistent with and/or conflict with or supersede, the interests of Sasol.

6.4 Three different types of Conflicts of Interest may arise, these are an actual Conflict of Interest, potential Conflict of Interest or a perceived Conflict of Interest.

6.5 A direct or actual Conflict of Interest will occur where an Employee is influenced by a real and existing conflict between his or her private interests (or the interests of those of a Related Party) and those of Sasol when doing his or her job.

6.6 A perceived Conflict of Interest is where an Employee is in a position where they appear to be influenced by their private interests (or the interests of those of a Related Party) when doing their job - whether or not this is in fact the case. Perceived Conflicts of Interest are often as bad as actual Conflicts of Interest as they arise due to the perception of third parties and may therefore contribute to the impairment of Sasol's reputation.

6.7 A potential Conflict of Interest will occur where Employees are in a position where they may be influenced in the future by their private interests (or the interests of those of a Related Party) when doing their job.

6.8 This Policy includes Conflicts of Interest which fall in one or any of the actual, potential and/or perceived Conflicts of Interest categories.

7. Sasol's policy regarding Conflicts of Interest

- 7.1 The responsibility for identifying, addressing and managing Conflicts of Interest lies with each Employee. The process for declaring Conflicts of Interest is set out in detail in the Process and Guideline.
- 7.2 Employees must avoid Conflict of Interest situations, however if these cannot be avoided then they must be fully disclosed and declared through the Conflict of Interest declaration process set out in this Policy and the Process and Guideline. In some cases, an Employee may not realize that a conflict exists until he or she is already engaged in the activity. In such cases, the Employee should contact his or her OME Ethics Officer or the Group Ethics Office as soon as the he or she becomes aware that the potential for conflict exists.
- 7.3 If an Employee is unsure about whether a contemplated activity might constitute a potential Conflict of Interest, he or she should contact the Group Ethics Office or the OME Ethics Officer for guidance concerning whether the declaration of the Conflict of Interest is required.
- 7.4 Upon completion of a Conflict of Interest declaration, the Approver will assess the Conflict of Interest and issue a determination, the process for which is described in the Process and Guideline. Note that declaring a Conflict of Interest is the first step, as once approved the Declarer is obliged to implement the risk mitigation steps and/or actively manage any restrictions placed on him or her for the duration of the existence of the Conflict of Interest.
- 7.5 When dealing with any Conflict of Interest, Employees must comply with all applicable laws, regulations, Sasol policies and Code of Conduct.
- 7.6 Employees must make all decisions and take all actions in Sasol's best interest.
- 7.7 Employees may not take business opportunities which rightfully belong to Sasol for their, or their Related Parties', benefit.
- 7.8 Employees may not disclose any proprietary or confidential Sasol information for their, or their Related Parties', gain or profit.
- 7.9 Besides the customary remuneration for services rendered, no Employee shall derive any other personal profit or gain, directly or indirectly because of his or her services to Sasol.
- 7.10 Employees must undertake all their responsibilities and obligations towards Sasol in good faith and may not be involved in activities which may interfere with their performance of Sasol's duties.
- 7.11 No Employee may either directly or indirectly (via a Juristic Person controlled by them) provide goods or services to Sasol on a commercial basis. This amounts to a significant Conflict of Interest and cannot be managed or approved and thus neither an Employee nor any Juristic Person controlled by them will be allowed on the Sasol vendor list.
- 7.12 An appropriate due diligence shall be performed by the Sasol representatives involved in the appointment of agents or other third-party representatives that are appointed to facilitate business for Sasol, to ensure that any Conflicts of Interests involving the agents or third-party representatives are identified and appropriate measures are taken to manage and mitigate any such risks and conflicts.
- 7.13 Job applicants and newly appointed Employees must disclose in writing any Conflict of Interest that they may have immediately during the appointment process. Newly appointed employees must

notwithstanding this disclosure during the appointment process also make the necessary declarations on the SDS or SharePoint System.

- 7.14 If the contemplated activity at Sasol of a former Public Official relates directly to the functions held or supervised by that Public Official during his/her previous role, the former Public Official shall not be hired or engaged in any capacity at Sasol before a reasonable period has passed after such Public Official left public office.
